

San Diego Community College District

CLASSIFICATION DESCRIPTION

Title: Senior Material Control Specialist

Unit: Maintenance & Operations

Page: 1 of 3
Job Code: E1110
Original Date: 06/2002
Last Revision: 04/2016
Staff Type: Classified
FLSA status: Non-exempt
Salary Range: 24

DEFINITION

Under the direction of the District's Acquisition Supervisor/Inventory & Receiving, or assigned supervisor, provide leadership, training, and coordination in the performance of material control services and maintain the District's official records as required under Business and Technology Services.

DISTINGUISHING CHARACTERISTICS

A Material Control Specialist performs warehousing, distribution, inventory, and records maintenance at the District's Central Receiving facility. Positions in this class are expected to drive delivery trucks, handle materials, and operate district computer inventory and accounting systems. Those assigned to the Stock Clerk I class work at a campus stores facility performing stockroom services and minor delivery routines. A Senior Material Control Specialist works as a permanent lead worker at the District's Central Receiving facility, performing warehousing, distribution, inventory, and records maintenance, including driving delivery trucks, handling materials, and operating complex District computer accounting and inventory systems. Those assigned to the Stock Clerk II class work in a lead capacity at a campus stores facility performing stockroom services and minor delivery routines.

EXAMPLES OF DUTIES

1. Provide leadership, training, and coordination in the daily material handling processes and controls for the district-wide receiving, distribution, and inventory services, including Receiving/Asset Management computer systems.
2. Receive and distribute materials; load and unload, pick-up, transport, and deliver materials; expedite deliveries and shipments; complete forms, validate shipping/receiving and inventory documents; inspect materials, identify and report discrepancies; tag assets, label and package materials; process returns.
3. Assist in maintaining accuracy of system databases, diagnose system errors and omissions, test system software, and process vehicle registrations; enter transactions and data into computerized administrative system; maintain tracking and inventory reports.
4. Provide and receive information and resolve questions, discrepancies, and issues with various staff, departments, and vendors. Recommend new policies and procedures for asset control and receiving and record archiving. Interact with faculty, administrators, and staff to provide special services and resolve problems. Respond to requests for services and updates in person, using computer email, or via the telephone. Explain relative policies, procedures, and practices.
5. Maintain district records storage; receive and review records for classification and content; distribute, retain, and destroy records or schedule for destruction. Maintain fixed asset and district inventory records; post changes to records; file records and other documents. Generate various reports. Prepare documents required to obtain permits, licenses, and registration for, and to dispose of District-controlled vehicles and other equipment.
6. Operate and oversee the operation of a variety of material-handling equipment, including trucks, delivery vehicles, hand trucks, forklifts, pallet jacks, dollies, and carts. Operate a variety of office equipment, including copiers, computers, printers, calculators, fax machines, and land and cell phones.

7. Maintain safe, clean, and organized facility/work areas; comply with safety and security regulations regarding handling of supplies and materials. Maintain general equipment safety procedures and repairs.
8. Schedule, participate in, and perform large and small-scale physical inventories. Assist in conducting and coordinating periodic inventory disposal, records destruction, and inventory. Assist in the tracking of fixed assets district-wide; locate, identify, tag, and assist in grouping equipment for audits.
9. Lead, train, and coordinate Material Control Specialists and temporary employees working in the department.
10. Maintain standard office equipment, material-handling, and warehousing equipment and tools.
11. Review various budgets and verify that the correct objects are being addressed and system flags are set; assist and notify appropriate offices as necessary; correct system records as appropriate. Assist in closing of fiscal year encumbrances.
12. Perform related duties as assigned.

DESIRABLE QUALIFICATIONS

Knowledge:

- Applicable laws, regulations, and policies governing transportation and proper storage of supplies and materials.
- Applicable laws, regulations, and safety practices related to the use and operation of equipment, such as motor vehicles and forklifts.
