Title: District Facilities Supervisor - Equipment Repair

Unit: Supervisory and Professional

Page: 1 of 3
Job Code: D1560
Original Date: 07/1989
Last Revision: 07/2024
Staff Type: Classified
FLSA status: Exempt
Salary Level: 05

DEFINITION

Under the general supervision of the Director, Facilities Services, or assigned manager, plan, organize, and supervise the maintenance and repair of district equipment, vehicles, alarm systems, and other maintenance activities as assigned, including contracted services. Coordinate services with site administrators, other site staff, and Facilities Services staff.

EXAMPLE OF DUTIES

1. Supervise, plan, organize, schedule, and assign lead, journey-level skilled, and semi-skilled workers; provide for training as needed, including awareness and safe handling of hazardous materials; appraise performance; provide for technical direction and guidance; make employment and transfer recommendations. May perform trade skills.
2. Coordinate and organize all levels of maintenance and repair on district equipment and vehicles both owned and leased, specialized equipment for college instructional programs, and the district's metal fabrication facility. Oversee and provide final recommendation for all purchases of supplies, services, and capital.
3. Plan, organize, and direct the alarm department; oversee the maintenance, service, repair, installation, programming, inspections, and identify fund sources for district wide fire alarm systems and multiple intrusion systems. Coordinate inspections regularly in compliance with building and fire codes.
4. Oversee Facilities Services cellular account by monitoring account activity, device selection, data plans and usage, line addition and removal; organize and direct facility services cell phone repairs, replacements, and setup.
5. Assist in developing maintenance budget, including assigned responsibilities for labor, materials, tools, equipment, and rolling stock; estimate job costs and prepare budgets; maintain cost and service records of district equipment.
6. Serve as a safety officer over the Equipment Repair Department functions; assure compliance with health and safety requirements including all state and federal requirements in addition to fire, health, and hazardous material regulations and laws; and determine how to mitigate risk.
7. Coordinate with other Facilities Services Supervisors regarding projects.
8. Coordinate maintenance services for emergency, urgent, and routine job order requests for equipment repair, including services contracted with outside vendors.
9. Obtain required registration and licensing of equipment; implement and monitor all warranties.
10. Establish priorities of repair projects; direct program of preventive maintenance; establish routine for inspecting the work of assigned employees.
11. Estimate labor, material, and overhead cost of repair projects; evaluate cost effectiveness of projects.

12. Prepare reports and bid specifications for purchase of equipment and vehicles and make recommendations for contract awards.
13. Assign technical trade workers to perform emergency and routine repair work; inspect completed work.
14. Prepare a variety of administrative reports with analysis and recommendations; compile data, prepare narrative explanations, implement continuous improvement process through ongoing assessments and planning for lean management, and develop appropriate benchmark data, and monitor progress toward department goals.
15. Develop and implement procedure and work practices for identifying, reporting, repairing, and inspecting of defects and/or deficiencies at district facilities.
16. Develop, implement, and interpret policies and procedures for equipment purchases and repair.
17. Implement and enforce safety regulations and practices.
18. Perform related duties as assigned.
