## Board Policy

### Chapter 6 – Business and Fiscal Affairs

#### BP 6980 - SUSTAINABILITY

---

The policy expresses the Board's intent to implement a districtwide sustainability program in accordance with applicable state laws, District goals, and District resolutions. Sustainable practices balance three needs: environmental quality, social equity, and economic productivity. The District acknowledges that the environment provides the foundation upon which society rests, and society provides the support for the economy to function. A core tenet of sustainability requires that the present generation meet its needs without compromising the ability of future generations to meet their needs. The District's Sustainability program works to analyze the impacts of decisions today and in the future. The District Chancellor shall develop procedures to implement this policy.
