

Gensler/Rudolph & Sletten, Inc.

San Diego City College,

“A” Building Expansion Project

“Our team is inspired by City College’s dedication to social justice and closing the student opportunity gaps. We hope our Student Center project serves as a foundation to continue that important work for the next decade and beyond improving the student and visitor experience for all.”

Gensler /Rudolph & Sletten Team – Design-Build Team

Meet the Design-Build Team: Gensler / Rudolph & Sletten

Leading the “A” Building Expansion Project at San Diego City College

What excites your team most about being selected for this project?

Our Rudolph & Sletten | Gensler team was genuinely excited by the prospect of contributing to City College's remarkable 100-year legacy in the San Diego community. Partnering to help shape the college's growth into its next century and support its emerging student leaders has been an incredible privilege.

How will you work with the district and campus community to bring this project to life? Our collaboration with City College and the district has been incredible this past quarter. We have sincerely enjoyed meeting the City College community and co-creating project drivers / priorities. We are excited that we have a clear project program and look forward to the next phase in design where we will see that vision to come life.

What experience does your team bring that will help deliver a successful outcome? We are fortunate that the Rudolph & Sletten | Gensler team has collaborated seamlessly for more than a decade. Our combined experience across numerous sectors including specialized expertise in higher education helps us serve the City College community and provide guidance for this important Student Center project.

How do you plan to incorporate sustainability, accessibility, or other district priorities into the design and construction? In alignment with the district's ambitious sustainability goals and leveraging San Diego's beautiful, temperate climate, we are dedicated to designing a project that achieves the highest possible performance. We plan to accomplish this through key strategies, including passive design, minimizing embodied carbon, and integrating on-site renewable energy solutions.

What impact do you hope this project will have for students, faculty, and the wider community? Our team is inspired by City College's dedication to social justice and closing the student opportunity gaps. We hope our Student Center project serves as a foundation to continue that important work for the next decade and beyond improving the student and visitor experience for all.
