F. Curriculum Items Removed From Consent Agenda

   Speech Communications (SPEE)
   099 Voice and Diction for Non-Native Speakers of English

   Paula Gustin questioned whether target audience and advisory information were
   included for approval. Laura Van Houten informed the Council that the target
   audience and advisory have been updated.

   ACTION: Motion to approve Speech 99 as modified. M/S/P (Andersen/Gustin)

G. Curriculum Items Added to Agenda

   American Sign Language (AMSL)
   115 American Sign Language, Level I
   116 American Sign Language, Level II
   215 American Sign Language, Level III
   216 American Sign Language, Level IV

   Elizabeth Armstrong distributed course outlines to the Committee. Gustin stated
   that these four American Sign Language courses have been in progress for two
   years and Mesa would like to expedite their approval in attempt to meet the
   current catalog deadline. Gustin stated that these courses incorporate finger
   spelling and take a spiral instructional approach. The units and numbering are
   being revised. Last Friday the Discipline Dean met with faculty and a lack of
   communication is the apparent cause for delays implementing the intended
   changes. Lombardi concurred that based on email correspondences she has
   followed it appears that faculty agree on the proposed changes.

   Harada stated that these courses reached Instructional Services only hours prior to
   today’s meeting and have not adequately received technical review. Andersen
   stated that the courses should not be at the Instructional Services level until City
   reviews further. Harada indicated that the courses could be returned to City only
   through an administrative procedure by Governet. Ron Manzoni stated that these
   courses need to be reviewed by the Curriculum Committee at City. In the event
   that changes are not included in the catalog, Manzoni stated that the information
   could be adequately conveyed to students via schedules or an ad indicating the
   change.

   Van Houten sought clarification regarding the intended changes. Van Houten
   stated that American Sign Language 100 has been submitted as a renumbering,
   changing 100 to 115, and should have been submitted as a new course depending
upon the intent. It is unclear at this time whether the courses were submitted as a renumbering or as new course proposals. It is also unclear whether City will retain the old courses, thereby leaving the issue of sequencing unresolved.

Manzoni clarified that all four AMSL courses are taught at City and renumbering needs to be consistent.

**ACTION 1**: Motion to postpone approval of AMSL 115 and 116 until the next CIC meeting on April 22 and approve AMSL 215 and 216 pending necessary modifications to be determined by Instructional Services following technical review. **M/S/P** (*Andersen/Manzoni*).

**ACTION 2**: The colleges will communicate and will then inform Instructional Services of their intended changes for proceeding with AMSL 115 and 116.

### III. OLD BUSINESS

**A. Frequency of Dropping Students for Nonpayment**

Jeffcoat will follow-up with Lynn Neault and report back to CIC at the next meeting. Jeffcoat will ask Neault for a proposal that considers CIC concerns about the frequency of drops.

**B. Access to Technology Language for catalogs**

Harada informed the Council that the following language will be included in the course catalogs under Learning Resources: *The use of District computer equipment is limited to District staff and students.*

### IV. NEW BUSINESS

**A. Multiple Same Course Proposals**

Van Houten instructed the Council that multiple course proposals in CurricUNET are problematic because the system creates parallel courses and ultimately eliminates one. When a course is copied to make modifications, the approval process begins, but when another campus initiates a simultaneous proposal, the second user copies the course from information that may soon become inactive. Most of the problems occur when a second user proposes distance education using the existing course outline.

Andersen stated that CurricUNET notifies users when there is another proposal in progress on the same course. Although should contact the individual responsible for the proposal that is already in the system, the Council agreed that it was unrealistic to
expect users to initiate communication regarding who should proceed with course changes first.

Harada is aware of this program limitation and has requested a programming solution, but the program is unable to accommodate multiple simultaneous course actions.

Instructional Services is receptive to suggestions to alleviate the challenges of submitting distance education courses and an alternative process will be considered by the Council.

**B. Academic Freedom Language**

Armstrong stated that language regarding academic freedom needs to be submitted for the accreditation report. Andersen stated that a discussion regarding academic freedom should include faculty representation and requested that further discussion be part of a planning agenda for accreditation. Armstrong stated that for State compliance a statement must currently be submitted. Manzoni stated that if Senate(s) wants to review and modify the language they could do so in the future, but the existing language should be used in its entirety for accreditation purposes.

Harada requested direction on the precise language to be included and the desired placement in the catalogs.

**ACTION 1:** Motion to include the statement from the present AFT faculty contract, Appendix 2, regarding academic freedom in the 2004 catalog.

*M/S/P (Deegan/Webb).*

**V. STANDING REPORTS**

**A. Chief Instructional Officers (CIO)**

Deegan reported that financial aid funding may become available to proprietary colleges, including Title 3 grants, which may have a potential loss of revenue to community colleges.

**B. Curriculum Updating Project**

Van Houten reported that the handout distributed is current as of this morning.

**C. General Education Task Group**

None
San Diego Community College District  
Curriculum Instructional Council

D. Hybrid Course Committee Update

Jeffcoat distributed minutes from the first Hybrid Committee meeting (the fourth bullet point to be amended). The goal of the committee is to begin a dialog and raise issues regarding the types of decisions that will need to be made in the future. Manzoni, Andersen, and Deegan stated that much of the hybrid discussion remains a scheduling matter for the colleges. Liz Armstrong stated that the committee should focus on making definitions clearly known and arrive at a consistent method by which hours on campus and hours off campus are communicated. Additionally, the committee should determine the need for technical support.
