

SAN DIEGO COMMUNITY COLLEGE DISTRICT

CITY COLLEGE • MESA COLLEGE • MIRAMAR COLLEGE • CONTINUING EDUCATION

Board of Trustees Meeting Date: 3/12/2020

The following curriculum changes are proposed for the San Diego Community College District for City College, Mesa College, Miramar College, or Continuing Education. There is no additional cost to the District.

New Programs

San Diego Continuing Education

1. **Child Care Provider Training, Certificate of Completion**

The Child Care Provider Training Program will provide students with foundational knowledge of early childhood development as well as information about business practices to help progress towards vocational, academic, personal and/or professional goals working with children. Students become familiar with the local requirements for childcare businesses and regulations pertaining to childcare providers. Program instruction incorporates development of critical thinking skills and soft skills needed in academic, professional and social settings with emphasis placed on caring for infants and young children. This program provides the knowledge and academic experience necessary for a student to successfully transition to credit institutions and further study in the field of child development.

Justification:

This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

Labor Market Information:

Occupational Projection of Employment 2018 – 2023 in San Diego County

Occupation	Employment		Employment Change		Annual Avg Openings
	Estimated	Projected	Number	Percent	
Preschool Teachers, Except Special Education (SOC 25-2011)	4,354	4,664	310	7.3%	500

Source: <http://coeccc.net/Supply-and-Demand.aspx>

2. Child Home Care Training, Certificate of Completion

The Child Home Care Training Program will provide students with knowledge of early childhood development, information about childcare business practices, and applied skills in both business and early childhood care and education. The program prepares students to have a successful child care business of their own serving children ages 0-5, as they experience hands-on-practice in a laboratory setting with multi-age children. Employment options, as well as opportunities for home business success, increase with program completion. This program provides the knowledge and academic experience necessary for a student to successfully transition to credit institutions and further study in the field of child development.

Justification:

This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

3. Early Learner Development, Certificate of Completion

The Early Learner Development Program will provide students with knowledge of the physical, cognitive, and socio-emotional development of children ages 2-5 years. The program focuses on developmentally appropriate practice in the care and education of children ages 2-5 years, and the creation of safe, appropriate and nurturing environments which foster emerging skills and readiness for school entry. Upon successful completion of the program, the student will be able to provide safe and nurturing environments and implement developmentally appropriate activities for early learners. The student will explore and identify careers and vocations in early childhood education, development and care. This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

Justification:

This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

	Estimated	Projected	Number	Percent	
Childcare Workers (SOC 39-9011)	10,002	10,432	430	5.6%	1,559

Source: <http://coecc.net/Supply-and-Demand.aspx>

4. Early Learner Enrichment, Certificate of Completion

The Early Learner Enrichment Program will provide students with knowledge and experience in various methods to promote and enrich physical, cognitive and socioemotional development in the early childhood between the ages of 2-5 years. The emphasis will be on brain development as enhanced by experiences with music, movement and outdoor learning and play.

Upon successful completion of the program, the student will be prepared to lead activities at home and in the workplace with children ages 2-5 years that benefit growth and development, with special emphasis on brain, language and physical development. The student will be able to demonstrate for parents and caregivers how to create safe outdoor play and learning environments for early learners. This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

Justification:

This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

5. Infant and Toddler Development, Certificate of Completion

The Infant and Toddler Development program will provide students with knowledge of the physical, cognitive, social and emotional growth of infants and toddlers. The program focuses on developmentally appropriate practices in the care of children ages 0-24 months and the creation of safe, appropriate and nurturing home and child care environments. Upon successful completion of the program, the student will be able to provide safe, nurturing and developmentally appropriate care for infants and toddlers. The student will explore and identify careers and vocations in infant and toddler development and care. This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

Justification:

This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

6. Infant and Toddler Enrichment, Certificate of Completion

The Infant and Toddler Enrichment program will provide students with knowledge and experience in various ways to promote and enrich infant and toddler physical, cognitive and socioemotional development. The emphasis will be on infant and toddler brain development as enhanced by experiences with music, movement and outdoor learning and play.

Upon successful completion of the program, the student will be able to lead activities with children 0-24 months, at home and in the workplace, that benefit infant and toddler brain development. The student will be able to create safe outdoor play and learning environments for infants and toddlers, and demonstrate to parents and caregivers how to do so. This program provides skills necessary for entry-level employment in child care occupations and will provide students the opportunity explore educational pathways in Early Childhood Care and Education.

7. Infant Care Specialist, Certificate of Completion

The Infant Care Specialist Program will provide students with knowledge specific to infant care and development, as well as an understanding of basic business practices involving the care of infants ages 0-12 months. Students learn how to provide safe, nurturing and appropriate care for infants in the family home or in a child care center. Students will acquire the knowledge and skills to open their own infant family child care home. This program provides the knowledge and academic experience necessary for a student to successfully transition to credit institutions and further study in the field of child development.
