New Programs

San Diego College of Continuing Education

1. Three to Five-Year-Old Specialty Curriculum, Certificate of Completion

The Three to Five-Year-Old Specialty Curriculum program provides students with knowledge to develop and implement curricula designed for 3 to 5-year-old-children in the specialty areas of literacy, communication, reading, science, technology, engineering concepts, art, and math. Emphasis is placed on understanding normative development and in utilizing the specialty curriculum to enhance growth potential and educational engagement in 3 to 5-year-olds. Additional emphasis is placed on recognizing unique needs or developmental delays in equitable and inclusive settings.

Justification:

Upon successful completion of the program, students are prepared to lead emergent literacy and STEAM activities in the workplace and at home with children 3 to 5-years-old. With an understanding of classroom mechanics, students will be able to successfully implement curriculum as well as modify literacy and STEAM activities to address individualized needs and unique environments.
