

SAN DIEGO COMMUNITY COLLEGE DISTRICT

CITY COLLEGE • MESA COLLEGE • MIRAMAR COLLEGE • COLLEGE OF CONTINUING EDUCATION

Board of Trustees Meeting Date: 3/10/2022

The following curriculum changes are proposed for the San Diego Community College District for City College, Mesa College, Miramar College, or College of Continuing Education. There is no additional cost to the District.

New Programs

San Diego College of Continuing Education

1. Digital Photography, Certificate of Completion

The Digital Photography program provides basic knowledge and skills required for a career as a photographer. The focus is to provide the fundamentals of digital photography and covers how to use the features of a digital camera. Students will learn the basic concepts of photography and operation of a digital camera. This program also covers establishing a photo management system and editing workflow used by professional photographers to accelerate the photo editing process and make organizing, editing, and sharing of digital photographs quick and easy. Advanced photo editing software tools will also be used for non-destructive mass image editing, printing, and publishing.

Justification:

Upon successful completion of this program students will be prepared for an introductory career in photography which includes, but not limited to, photographer/editor, school photographer, real estate photographer, and/or freelance photographer. Students interested in freelance photography or gig photography jobs are encouraged to complement the knowledge and skills gained upon successful completion of this program with courses in small business planning, management, and growth. Students interested in higher photography, graphic design and/or marketing careers are encouraged to continue their education and earn a degree as employers typically require a bachelor's degree as the minimum educational requirement.
