

DISTRICT ARTICULATION COUNCIL

March 1, 2005

Room 272

NOTES

Attendees: Libby Andersen, Diane Glow, Paula Liska, Myra Harada, Laurie Vanhouten

I. Verify Courses to be proposed for transfer

- Curriculum summaries from the February 10 and 24th CIC meetings were distributed for confirmation of submission for approval. AOs will respond to Laurie via email.
- Stand-Alone courses
Libby reported that EDUC 200, 203, 199 are prep for the major at SDSU and do not require state approval.
- Myra will call a meeting on stand-alones asap with invitees 3 CRC chairs, AOs, and VPIs.

II. Catalog Review

- New American Institutions format

AOs will give format to counselors and transfer center directors to review and inform Myra.

- Catalog Format

- IS will review the legend accompanying GE, IGETC, & CSUGE listings for convenience and accuracy. +s don't match up with ASSIST. Oral communication requirement should be removed from the text box. Consult Santa Monica and De Anza catalogs.
- New formatting submitted by Diane Glow for Science/Lab courses under CSUGE-IGETC.
- Myra will email counselors re new format that lists colleges within parentheses on the CSUGE and IGETC pages that have transferability approved by the receiving institutions. Having colleges within parentheses no longer means simply that the courses are offered there.

- Transfer Information

- Variable topic courses will be given a designation of 2, not 3 because their acceptance by UC is determined only after the student matriculates.
- The AOs will meet to confer.

III. UC Transfer with Limitations

- Courses that appear to be variable topic will be submitted to Dawn Sheibani to inquire if they are really transferable with unit limitations:

ART 260, 281

DRAM 126, 250, 251, 267

MUSI 252

IV. Indiana University Articulation

- Diane will further clarify with Indiana.

V. Regis University Articulation

- Libby presented City's request to enter an MOU with Regis because it would benefit their students in the Microsoft program and Information, Network, and Web Technology studies.

Announcements

Military Articulation—Meeting at City March 8, 2005 at 1pm. Armando Abina, Chuck Rowland.
