

*CURRICULUM & INSTRUCTIONAL SERVICES*  
**DISTRICT ARTICULATION COUNCIL**  
*ACTION ITEMS*  
03-07-07

**Attendees:**

Elizabeth Castaneda- City College Articulation Officer  
Naomi Grisham- Mesa College Transfer Center Director  
Myra Harada- Dean of Curriculum and Instructional Services  
Marilyn Harvey- City College Transfer Center Director  
Juliette Parker- Mesa College Articulation Officer  
Michelle Radley- Articulation Assistant, Instructional Services  
Duane Short- Miramar College Articulation Officer

**ACTION ITEMS**

**Old Business**

**1. Memorandum of Understanding (MOU):**

Mesa did not approve the MOU for Indiana University. City and Miramar will continue their review. Articulation Officers will inform Instructional Services of any other MOU that is being reviewed at this point and in the future.

**2. Termination of Graphic Art articulation by SDSU:**

San Diego State University terminated the articulation of Graphic Art with community colleges. SDSU is expected to provide an official letter at the CAC meeting on Monday, March 12, 2007. Mesa will take the lead to respond to the official letter. Juliette Parker will work with Mesa's Art department to develop a plan of action.

**3. UCSD TAG historical approval:**

Duane spoke to Jorrie Miller at UCSD and she said that UCSD will allow a course to meet the TAG requirements as long as:

- 1) the course was UC transferable when the student took it
- 2) the course appears on the TAG contract the student signed
- 3) the course appears in the contract in effect the year the student transfers.

UCSD will also honor courses that appear on the TAG GE pattern the year the student took them although they do not appear on the contract the student signs. Duane will ask Jorrie to put the information on writing.

**4. UCSD TAG AP World History equivalency:**

Jorrie Miller from UCSD is reviewing the language in the TAG pattern. Duane will update the Articulation Officers if there are any changes to the language.

**5. New verbiage for transfer GE patterns:**

Articulation Officers are reviewing the language in the transfer patterns in the catalog. Juliette is reviewing the CSU GE pattern; she said that the information is different for all three colleges. Elizabeth is reviewing TAG, she needs to talk to Evaluators at her campus. Duane is working on the IGETC language. Articulation Officers will e-mail each other the new verbiage. Revisions will be done by March 22, 2007.

**6. AP/IB Evaluation Update:**

Articulation Officers agreed that if two colleges agree on a course recommendation, the recommendation will be effective for all three colleges. Juliette will ask the Evaluators at Mesa about the reason for recommending area D for IB credit in ECON instead of ECON 120 and 121. City's faculty recommended a credit of 4 or 5 for AP in Environmental Science; Miramar's faculty recommended a credit of 3, 4 or 5. Duane will take the issue back to Miramar.

**New Business:**

**7. National University BA degree in Interdisciplinary Studies and BA degree in English:**

Dr. Ken Fawson and Dr. Kalani Beyer talked about the two bachelor degrees that National University is offering: B.A. in English and B.A. in Interdisciplinary Studies. Naomi Grisham talked about the possibility of establishing an MOU for Mesa's Allied Health and for City's Communication program with National University. She also said that she is interested in obtaining National University's data on how many SDCCD students transfer to National University.

Dr. Fawson will e-mail the power point presentation and advising sheets to Myra and Articulation Officers.

Articulation Officers can contact Dr. Fawson via e-mail at [kfawson@nu.edu](mailto:kfawson@nu.edu)

**8. LDTP Update:**

AO's will review SDCCD course inventory against published LDTP descriptors and sort applicable SDCCD courses into the following three categories:

- a. Courses that appear to meet LDTP descriptor requirements.
- b. Courses that appear to require only minor modifications in order to meet LDTP descriptor requirements.
- c. Courses that appear to require substantial modifications in order to meet LDTP descriptor requirements.

Please see attached Memo

**9. Common course numbering:**

Myra requested information about the common course numbering on the RFP from the State. Duane said that money from the state budget was allocated it to develop a common course numbering system.  
Please see attached documents.

**10. GE advising sheets:**

Juliette talked about the advising sheets and how she would like the format of the sheets to resemble the format on the catalog; more specifically she wants the college where the course is offered to be reflected in the advising sheets. Naomi said that the Transfer Center Directors agreed not to include this information on the sheets. Myra offered to e-mail Juliette and the Transfer Center Directors a PDF file with the catalog's transferability information after the catalog is completed.

**11. Howard University MOU and possible others at the District:**

Juliette wanted to clarify that the agreement signed between Howard University and SDDCD is not an MOU but a Transfer Agreement. Myra said that last year the Articulation Officers agreed to let the agreement go through. Duane will work on defining the different agreements: Transfer, Articulation and MOU and will bring the draft to the next DAC meeting.
