

SG21 Subcategory Update – Spring 2023 Section and Student Coding

Extract Data as of July 6th, 2023

Context

This data extract update provides section and student-level coding from Fall 2020 until the present and allows each college to see SG21 efforts since the region implemented SG21 subcategory coding. It allows institutions to see the volume of students that had an SG21 experience over time, what type of SG21 subcategory experiences are being coded through enrollments, and expected SG21 counts in MIS.

The counts are unduplicated to represent sections and/or students that had at least one SG21 subcategory experience. Spring 2023 data includes section-level subcategories being coded at each institution. The percent of students that had at least one SG21 experience out of the student population that term as well as demographic information (age, ethnicity, gender) compared to student demographics from the Office of Institutional Effectiveness and Research's [Student Profiles dashboard](#) is also included. Internal MIS data expectations and MIS data available from [CCCCO's Datamart](#) are also provided.

The data is organized by the following eight questions followed by an appendix. Please click on any line to go to that place in the document.

6. Which Subcategories were coded at the section level for Spring 2023?

Below are highlights for each college from Spring 2023 section coding. Please look at the appendix for section and enrollment counts by SG21 subcategory from Spring 2021 to Fall 2023 for each college.

City College: The most coded subcategory for sections was Career Readiness (C5) and Capstone Project (A2). Nearly all subcategories were coded for Spring 2023 except for Internships (A5 – paid; A6 – unpaid). [Appendix: City College \(Table 9\)](#)

Mesa College: The most coded subcategories for sections were Career Readiness (C5), and Simulated Workplace Experience (B5). Almost all subcategories were coded in Spring 2023; the ones missing were Apprenticeship (A1), On-the-job Training (A7), and Mentorship (B4). [Appendix: Mesa College \(Table 10\)](#)

Miramar College: The most coded subcategory for sections and the one with the most enrollments was Job Shadowing-individual (B3), followed by Career Readiness (C5). There were eight subcategories coded (A3, A4, B1, B3, B7, C2, C3, C5). [Appendix: Miramar College \(Table 11\)](#)

College of Continuing Education: There were three coded subcategories, in order of most code by section, they were Career Readiness (C5), Mock Interviews (C4), and Capstones Projects (A2). [Appendix: College of Continuing Education \(Table 12\)](#)

7. What are our total MIS counts by SG21 category?

Important facts about [MIS reporting for SG21](#):

- MIS reporting is unduplicated by College. If the student is identified as participating in more than one type of work-based learning during the reporting term, report the first applicable code (A through C). *Examples: If a student participates in a WBL activity within the A, B, and C categories, they are only recorded as A. If a student participates in a WBL activity within the B, and C categories, they are only recorded as B.*
Table 7 below shows student counts applying MIS hierarchy logic. Only A, B, or C are shown.
- MIS Code Definitions:
 - **A** - Student participated in work-based learning preparing the student for employment in a specific range of occupations, such as internships, work experience, and capstone projects
 - **B** - Student participated in work-based learning allowing the student to apply learning through practical experience and interaction with professionals from industry and the community outside of school, such as job shadows, service learning, class projects or challenges, and mentorships
 - **C** - Student participated in work-based learning allowing the student to build awareness of the variety of careers available, begin identifying areas of interest, and explore career options, such as guest speakers, company tours, field trips, career fairs, and mock interviews
 - **N** – Student did not participate in Work-Based Learning
 - **X** – Unknown / Unreported

Note 2. Summer 2023 and Fall 2023 values are as of 07/06/2023.

8. What are the official MIS values posted within CCCCO's Datamart?

The CCCCO's Datamart does not show MIS counts by category but only each college's total headcount.
