Introduction

Overview

This report is intended to provide information regarding the course-taking behaviors and outcomes of Disability Support Programs and Services (DSPS) students. This report includes benchmarks that may be used as a point of reference, including averages for the DSPS Student population and the All Student population.

Methodology

The data for this report are generated from the SDCCD Information System. Student demographics, student characteristics, and course-taking patterns are provided separately for each primary term (fall and spring) in the 2011/12 academic year. Student outcome calculations combine primary terms. FTES is provided for the entire year (summer, fall, and spring).

Only students enrolled past official census day are measured, and college affiliation is determined by the students' college of coursework to more accurately represent students who take classes at multiple colleges in the district. This report measures online and vocational course enrollments by DSPS service categories. Note that some students received services in multiple categories and enrollments for these students are duplicated.

Operational Definitions

All Colleges – Includes City College, Mesa College, Miramar College, and ECC. As some students attend multiple colleges, a count of students or enrollment at each of the colleges and ECC will not sum to an All Colleges total count of students or enrollment.

DSPS Special Classes - Classes with 50% or greater DSPS-identified student enrollment.

FTES - Total number of full time equivalent students enrolled at first census.

Official Census Enrollment - The number of seats, or duplicated headcount, as of official census day. (Tutoring classes, cancelled classes, and those students who dropped or never attended prior to census day are excluded.)

Official Census Headcount - The number of students, or unduplicated headcount, as of official census day. (Cancelled classes and students who dropped or never attended prior to census day are excluded.)

Retention Rate - The percentage of students who complete a course with a grade of A, B, C, D, F, P, NP, I, or RD out of total census enrollments. (Tutoring and cancelled classes are excluded.)

Success Rate - The percentage of students who complete a course with a grade of A, B, C, or P out of total census enrollments. (Tutoring, non-credit, and cancelled classes are excluded.)
