Introduction

Overview

This report is intended to provide information regarding the course-taking behaviors and outcomes of Disability Support Programs and Services (DSPS) students. This report includes benchmarks that may be used as a point of reference, including averages for the DSPS Student population and the All Student population.

Methodology

The data for this report are generated from the SDCCD Information Systems. Student demographics and characteristics, and course-taking patterns are provided separately for each primary term (fall and spring) in the 2009-10 academic year. Student outcome calculations combine primary terms. FTES is provided for the entire year (summer, fall and spring).

Only students enrolled past census day are measured and college affiliation is determined by the students' college of coursework to more accurately represent students who take classes at multiple colleges in the district. This report measures online and vocational courses by (duplicated) course enrollments.

Operational Definitions

All Colleges – Includes City College, Mesa College, Miramar College, and ECC. As some students attend multiple colleges, a count of students or enrollment at each of the colleges and ECC will not sum to an All College total count of students or enrollment.

Average Term GPA – An average of the fall and spring term student GPAs.

DSPS special classes - Classes with 50% or greater DSPS-identified student enrollment.

Enrollment - The number of seats or duplicated headcount.

FTES - Total number of full time equivalent students enrolled at first census.

Headcount - The number of students or unduplicated headcount.

Official Census Enrollment - All students who are enrolled as of the course designated census day (excludes Drops but includes Withdrawals). Characterized or marked by the week nearest to 20% of the number of weeks in the primary term.

Retention Rate - The percentage of students who complete a course with a grade of A, B, C, D, F, P, NP, I or RD out of total census enrollments. (Note: Tutoring classes are included).

Success Rate - The percentage of students who complete a course with a grade of A, B, C, or P out of total census enrollments. (Note: Tutoring and non-credit classes are excluded).
