BP 3108 – ACCESSIBILITY STANDARDS FOR ELECTRONIC AND INFORMATION- TECHNOLOGY – SECTION 508

BP 3725 – INFORMATION AND COMMUNICATIONS TECHNOLOGY ACCESSIBILITY & ACCEPTABLE USE

~~The District is committed to all provisions of Section 508 of the Rehabilitation Act of 1973 to provide accessibility to electronic and information technologies for individuals with disabilities. Electronic and information technologies are a significant means by which the SDCCD provides information to students, faculty, staff and other constituents.~~

~~Accessibility is also a part of the District's ongoing commitment to establish a barrier-free learning community or universal access to all students.~~

- ~~1. Individuals with disabilities are guaranteed access to educational institutions and systems of communications under Section 508 and California Government Code Section 11135 which specifies that:~~
 - ~~a. The development, procurement, maintenance and use of electronic or information technology shall comply with accessibility standards of Section 508;~~
 - ~~b. Accessibility improvements of existing technology will increase the successful education and employment of individuals with disabilities, particularly blind and visually impaired and deaf and hard of hearing; and~~
 - ~~c. The college will respond to and resolve any complaint regarding accessibility of its products or services that are brought to the attention of the college/District.~~

The District is committed to ensuring timely and equal access to instructional materials and Information and Communication Technology (ICT) for all members of the community, including individuals with disabilities. As it relates to equally effective alternative access to instructional materials and ICT, "timely manner" means that the individual with a disability receives access to the instructional materials or ICT at the same time as an individual without a disability, to the extent feasible and in support of essential workplace and/or educational requirements.

As an ongoing commitment to establishing a barrier-free learning and working community with universal access to all, accessibility is provided in accordance with Sections 504 & 508 of the Rehabilitation Act of 1973.

Administrative Procedure, AP 3725, Information and Communications Technology Accessibility & Acceptable Use, is established to comply with the requirements specified in Section 508 of the Rehabilitation Act and its implementing regulations.

The intent of this policy is to ensure compliance with state and federal laws.

AP 3725 – INFORMATION AND COMMUNICATIONS TECHNOLOGY ACCESSIBILITY & ACCEPTABLE USE

The San Diego Community College District will ~~permit qualified students~~ ensure that individuals with disabilities ~~to have access to instructional materials and electronic and information technology~~ Information and Communication Technology (ICT) in District facilities and on District campuses in compliance with state and federal law. ~~Board of Trustees Policy 3108, Accessibility Standards for Electronic and Information Technology BP 3725, Information and Communications Technology Accessibility & Acceptable Use~~, was established pursuant to the Americans with Disabilities Act of 1990 (ADA) and Section 508 of the Rehabilitation Act of 1973.

The purpose of this procedure is to ensure that ~~qualified students~~ the District does not discriminate because of disability, and to ensure that individuals with disabilities can participate in and benefit from District services, programs, and activities, ~~and to ensure that the District does not discriminate on the basis of disability.~~
~~This procedure implements Policy BP 3108 with regards to electronic and information technology on campus.~~

1. DEFINITIONS

- a. Accessible – An individual with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use.
- b. Equally Effective – Alternative access for individuals with disabilities to instructional materials and Information and Communication Technology that (1) is timely, (2) is accurate in translation, (3) is delivered in a manner and medium appropriate to the disability of the individual, and (4) affords the individual with a disability the opportunity to obtain the information as fully, equally and independently as a person without a disability with substantially equivalent ease of use. Note, such alternative(s) must afford individuals with disabilities equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement in the most integrated setting appropriate to the person's needs.
- c. Individual with a Disability – An individual with a disability is a person who has one or more physical or mental impairments that substantially limit one or more major life activities.
- d. Information and Communication Technology (ICT) – ICT encompasses electronic and information technology covered by Section 508 of the Rehabilitation Act of 1973, as well

as telecommunications products, interconnected Voice over Internet Protocol (VoIP) products, and Customer Premises Equipment (CPE) covered by Section 255. Examples of ICT include computers, information kiosks and transaction machines, telecommunications equipment, multifunction office machines, software, websites, and electronic documents. Additionally, ICT does not include any equipment that contains embedded information technology that is used as an integral part of the product, but the principal function of which is not the acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information.

- e. Instructional Materials – Electronic instructional materials, such as, syllabi, textbooks, presentations and handouts, which are delivered within SDCCD's learning management system, via email or via another electronic means for face-to-face classes as well as distance education courses. Activities such as instructional videos, online collaborative writing, web conferencing, blogging, and any other instructional materials not defined that are implemented as technology evolves are included.
- f. Timely – As it relates to equally effective alternative access to instructional materials and ICT, timely means that the individual with a disability receives access to the instructional materials or ICT at the same time as an individual without a disability to the extent feasible and in support of essential workplace and/or educational requirement.
